Education / Project(s)

Sept 2021 – Present

Software Development and Network Engineering
Sheridan College

Sept 2022 – Present

E-Commerce website

Personal Project

- Used Figma to make a prototype of a website.
- Created a web page layout using HTML5.
- Added functionality and visual appeal with CSS, following UX/UI design principles, such as the rule of thirds, consistency, reversible actions, emphasis, and color/contrast.

Nov 2022 – Present

Online Portfolio

Personal Project

- Created a web page with a navigation bar and specific content and page elements using HTML5.
- Added functionality and visual appeal with CSS, JavaScript and jQuery following UX/UI design principles, such as the rule of thirds, consistency, reversible actions, emphasis, and color/contrast.

Working Experience

April 2022 - Sept 2022

Business Assistant

Gaya Yaffa Team - LA Real Estate

- Implemented new design and look of the content produced for the Realtor's media such as Posts, Stories, Flyers, etc., leading to a more modern and uniform look of the content.
- Effectively communicated with clients using professional language, leading to crystal clarity during the whole process of starting and finishing the deal.
- Managed social media, leading to consistent content being published, resulting in 10s of thousands of views generated throughout all the platforms.
